I believe Mr. Chentsal Rao has already seen the telegraphic instructions I found it necessary to issue in the matter.

I had by D.O. asked Mr. Theivasikhamani to speak to Veerasawmappa & point out to him the gross impropriety of his Conduct.

It is evident that this had no effect upon him. After further enquiry it would be necessary to deprive him not only of the Municipal Commrship but also of the Magistracy which I think he holds hereditarily.

The Conduct of the Bodenhalli Mutt also calls for strict Enquiry. It may be necessary to deprive the Mutt of its honors & privileges, at least for a time, as a mark of Royal disfavor, though we may not now be able to fine the Mutt as Mr. Bowring once did in the good old days!

From

The Census Superintendent
in Mysore

To

The Chief Secretary to the
Dewan of Mysore

Sir,

I have the honor to submit the following report for the information of Government.

2. As the Dewan is aware, the Lingáyets of the Province have been complaining off and on in course of the last decade of their having been classed under Súdras in the Census returns of 1881. Their grievance was accentuated by the requirements of the forthcoming Census; and the members of the Community kept on sending petitions to His Highness the Maha Raja and to the Dewan. The head Centre of the agitation is the City of Mysore, and Virasangappa, who I hear is a Municipal Commissioner, counted notoriety as their spokesman. He came it

a Press, which enabled him to rouse his otherwise apathetic Castemen, by means of printed petitions which were sent round to be signed and posted from Lingáyet-inhabited Villages and towns, and by a Sectarian paper and pamphlets.

3 When the prescribed preparations were being made for the Census, the question was repeatedly put in all the Districts as to how the Lingáyets would be classed. One Assistant at least pointedly pressed the matter on my notice, and I sought the orders of Government thereon. When at Mysore in October last, Virasangappa interviewed me and tried to drag me into a discussion on the relative merits of their claim and of that of the normal Brahmans. Knowing that the Govt is neutral in religious and sectarian disputes, I declined the controversy, and wanted him to formulate his demands He then gave me on the 2d November last a paper containing—

(1) a list of the special sub-castes of Lingáyets which are entitled to be classed as Brahmans,

(2) a t of other sub divisions not so entitled, and

(3) the draft of an endorsement proposed to be given to his castemen to the effect that they would not be classed as Súdras, and that as there was impossible to define which of the sub castes are, and which are not, Brahmanical they would be tabulated separately under the designation of "Lingáyeti"

4. I brought the above to the Dewans notice in person, who desired me to direct Virasangappa and a few of his fellow caste people to wait on him a few mornings afterwards in order to discuss the matter. I informed Virasangappa accordingly, and left Mysore on the 3d November. The request of the Lingáyets was granted by Dewan's Order No. $\frac{10772}{1438}$ dated 22 January 1891, in accordance with which my Circular No. 20 and a Kanarese Sthálá were issued. Copies filed herewith for ready reference.

5 I am afraid, however, that Virasangappa has not been true to his word. While defining his requirements as above in writing, he has been secretly inciting his castemen to open defiance of Govt and has sent round to them a printed Circular, of which a copy was sent to

9082

with my No. 646 dated 22nd December/90
Another copy is attached hereto for ready
reference. It contains a set formula
of the information to be supplied to the
Census Enumerators, and describes their
caste as Brahman, and their subdivision
is mentioned in Col 5 by unusual and
not-generally-understood names. In the
same column, certain gôtras and Sâkhâs
are entered, which the Lingâyets are
instructed to force on the Census officers.
Nearly all rural wearers of the Linga in the country, and
most of their urban 'confreres' had
as a rule never heard of these names,
but getting hold of manuscript copies
of the tabular statement inserted in
Virasangappa's printed Circular, they
obstinately refused all information or
any answer regarding their Census par-
ticulars, unless and until the above entries
are made. Virasangappa appears
to have been backed by the Authority
of the Lingâyat Maths, as it was re-
ported to me on several occasions in
my tours that although the older members
of the community did not understand
and did not care for the new-fangled
notions and names, they were obliged
to avow them on pain of excommunication.

6. Upto the stage of the Preliminary record in last month, the attitude of the Lingayets was not fully realized, as it was confined to wordy discussions more or less private. But it was forced on my attention out of necessity in the Hassan District, in which the Preliminary record had commenced when I visited it for Census inspection. In Hassan town, and in the Taluk Kasbás of the District which I visited, the contumacious conduct of the Lingáyets had brought the work to a sudden stand. They absolutely refused to give any answers or any information to the Census officers, unless they were recorded in the first 5 cols. as dictated by themselves, i.e., in the terms of Virasangappa's circular. The Amildars had no power and were at their wits' end. They of course made reports to the Deputy Commissioner. I did not fail to bring to bear on the refractory people what powers of persuasion and reasoning I had: but I could make no headway against the weight of fanaticism, fomented by priestly influence. Perceiving that the work would be seriously interfered with,

I wrote to the Hassan Deputy Commissioner on the Census Assistants' Diary, drawing his attention to the state of things, and suggesting that he should take action under the Census Act against the most recalcitrant and mutinous Lingáyets for not answering the legitimate and relevant questions of the Census officers, and that the District officers' authority and influence should be lent towards pushing on the Census work. I am not aware upto date what steps the Deputy Commissioner took in the matter; but I saw at Bélúr on the 23d ultimo, his order to the Amildar directing that the particulars of the Lingayets should be recorded as stated by themselves.

7. In the meantime, I heard demi officially from the Deputy Commissioner of Shimoga under date 15th Ult. that as it was useless to argue with the ignorant villagers, who were instigated by the Mysore agitator, he had ordered his Census officers to record the Lingáyets as described by themselves. He did not approve of my suggestion that the Census Act should be put in force against any of them for refusing to answer or for

not

not correctly giving the true and well-understood names of their sects and subsects.

8. I also heard otherwise that in other Districts, the Lingáyets were allowed to get themselves censused as they liked, and that the Dewan had expressed himself to the same effect, conditioning however that the names of their subcastes should be truly and correctly stated, and that their ultimate classification would be made as in the rest of India. Subsequently, i.e, on the evening of the 25th idem, I received copy of the Dewan's telegraphic orders to the same effect.

9. I also applied to the Bombay and Madras Superintendents of Census for information as to what was being done in their respective Lingáyet Districts; the former replied that he thought we should take them down as Víraśaiva Brahmans if they choose to call themselves so; while the latter has sent me copy of correspondence, from which I see that the question of calling them Brahmans was not raised by the Lingáyets at Bellary and in Coorg. At Kodlipet however

however, I was told by the Lingáyets on the 21st ultimo, that they would return themselves as Viraśaiva Bráhmans.

10. In view therefore to pushing on with the work, which as I said above had come to a deadstand, I reasoned with the Lingáyets of Manjarabad, Bélúr and Chikkanagalúr, in which Talukhs they muster very strong, and permitted them to return themselves as Viraśaiva Brahmans in Column 4, as provided in Col. 5 they correctly stated their well-known and popularly understood subcaste names, and did not obtrude on the Census officials their Gótras and Śákhás unasked. I gave them at the same time distinctly to understand that their eventual classification would depend on the orders of Government. This seems to have met with their general satisfaction.

11. The more intelligent of the Lingáyet communities are not without apprehension that they would never be called Brahmans in the course of tabulation, and make frantic but comical attempts to conceal their real identity in the fantastic names which they

they assigned to their sub castes, many of which are only Sanskrit synonyms of the vernacular name: ex gr the Nonabas now come to be ashamed of that ancient & well understood appellation, which they have supplanted by the new name of "Mókshaka", which I suppose is a corruption of "Makshika": the Sádas wish to conceal themselves behind "Sadáchar", &c., &c. I have however requested the Deputy Commissioners to insist on the Census officers ascertaining if necessary by leading questions, the true and well-known names of the sub castes, and have also suggested to them to take notice under the Census Act of any refusal to give correct information on the point. The above facts are brought to notice in my Journals of inspection, forwarded with this Office No. 767 dated 2nd Instant 10158

12 On the evening of the 25th Ultimo I received from Mysore the Deputy Commissioner's letter No. 108 dated 20th Ult stating that on his speaking severely to Virasangappa on the latter's nefarious conduct, he had withdrawn his objections

had consented to give his own census details and to induce his fellow caste-men to do the same, if Column 4 is left blank, and enclosing a deposition from that individual, and the draft of his circular to his fellow-Lingáyets to the same effect. Copy of the letter and its enclosures are attached — Mr Mecklejohn hoped that the printing and circulation of the deposition of Virasangappa would bring the Lingá-yets to reason, but the Kadur Census Assistant Commissioner says that Vira-sangappa had printed and sent round the Circular, but the people did not care for it now. Whether the pub-lication of the circular by Virasangappa is not a counter manœuvre rendered nugatory by secret instructions is more than I am able to say at present. In this connection, I submit it is worthy of enquiry whether the conduct and proceedings of Virasangappa are quite lawful, and are not such as merit the severe displeasure of Govt. He has collected large sums of money from every locality peopled by the Lingáyets

Lingayets, on pretences which are more or less questionable, and he has incited his fellow-castemen to set the orders of Government at defiance, and to put every possible obstacle in the execution of the work, which the Government has desiderated as one of paramount importance. Although he is at liberty to agitate in a lawful manner for a lawful object, the feeling is pretty largely entertained in the country by the intelligent classes, official and non official, that Virasangappa has been at the bottom of all this mischief and should be seriously dealt with.

13. When I returned to Bangalore on the 27th ultimo, it was reported to me that not only the Lingayets, but the Goldsmiths, Devangas, Satanis, &c. had formed determined combinations in the City, and had refused to give any information for their Census unless they were also taken down as Brahmans. I invoked the Deputy Commissioner's personal interest in the work and begged him to take such steps as would ensure the work going on from the 31st instant, which was the date fixed for the Preliminary Census

From the Taluks also reports were received to the effect that in spite of the energetic steps and personal exertion of the Census Assistant Commissioner obstinate opposition was made by Lingáyets, &c., in numerous places The Census Assistant Commissioner had also urged that the ringleaders should be dealt with under the Census Act. At my suggestion, the Deputy Commissioner held a meeting on the 30th idem, at which myself, the Police Superintendent in charge of the Census of the City, and Mr Puttanna Chetti, the Municipal Vice-President attended. On the 31st also, the attendance was the same with the exception of the Deputy Commissioner. The men however were prone to reason. The Under-Secretary's d.o. to the Deputy Commissioner dated 24th idem was also shewn to me. As if the obstruction of the Lingayets was not enough, nearly all the non-Lingáyet castes had got up a counter-movement, protesting against the Lingáyets being dubbed Brahmans, and against their calling themselves masters of the 18 Dhanâs.

Their printed and numerously signed petition is also enclosed.

14. Under these circumstances, and with the object of removing every obstacle to the completion of the Census, which work is one that cannot be put off, I decided upon permitting the disputing castes to return themselves as they liked, on the condition that their well-known and correct subdivisions are distinctly stated. I gave them however clearly to understand in the terms of the Dewan's telegram that their tabulation would hereafter be made as in the rest of India.

15. The Goldsmiths of Bangalore waived their claim to be called Viśva-Karma Brahmans, if they are styled only Viśvakarma and Panchánana respectively in Caste and Sub-Caste, and I concluded that their demand was not unreasonable.

16. It is perhaps a sign of the times that the desire to be dubbed Brámhan has penetrated all the non-Brahmanic castes, even as low as the Mádigs, who are reported to

Cali

call themselves Jó-bramhans. But I am not yet able to say whether this has been taken down in their Census returns. It should be noted here that, while Vírasangappa and his adherents would class only 13 of the subsections of the Lingáyats as Vira-Saiva Bramhans to the exclusion of others, all wearers of the Linga without exception covet the caste exaltation. At Kolé Narsipur, it was reported to me that a Lingayat prostitute wanted the Enumerator to record her as Brámhan by caste.

17. By way of explanation, I may state that Column 5a was specially designed for this Province for noting whether each enumerated belongs to the 18 or 9 Dhanás, and that the Gótrás and Sákhás of the normal Bramhans only were required to be noted in Column 5.

18. I beg to apologize for troubling Government with all this length: but I am anxious to report fully all my proceedings in connection with

15
this agitation, which has already
attained to inconvenient and un
pleasant proportions

Sir

In acknowledging the receipt of Government order No 12520-1 dated 1654-292 10th instant together with its enclosures, I have the honor to state that Veerasangappa's circular to his caste-men was first brought to my notice

in the Talugs of Nanjy & Nealwadi
of the French Rocks Sub Division. The
Lingayet population in these Talugs
is rather large, & particularly in
some villages a stubborn resistance
was offered to give the needful
information unless the 2nd, 3d, 4th
& 5th columns of the Schedule were
first filled up as Viraseywa Brah-
mins &c. The greatest trouble
was experienced in Nunjungode,
T. Narsipur, Yedatory, Attikuppa
& parts of Chamrajnagar Talugs &
also in Mysore Town. The contagion
spread to other Sects of Hindoos, such
as Panchalas, Weavers &c. With
greatest difficulty the Preliminary
census was completed; Veeraswamy's
circular, which was circulated
freely throughout this District, so
far as my information goes, is the
only cause for this. The duty of this

gentleman as Municipal Board member was to assist the local authorities on such important occasions; on the contrary, he has thrown as much obstacle as possible in the way of the authorities. So far as the main question is concerned he was at full liberty to make any representations to Government which he thought proper. But his having excited the feelings of his caste-men by issuing circulars of the nature in question is highly objectionable in my opinion. Such an individual is decidedly not fit to be a member of the Municipal Board. I think the Government is quite right in having taken action in the matter.

The enclosures of the Collector Superintendent's letter No 796 dated

5/7 c instant are herewith returned
as requested.

Sir,

With reference to Government order no 13420 / 1768-£363, dated 3/4th March 1891, I have the honor to submit herewith statements showing the names of the Municipal Commissioners whom I propose to retire, and those who are to be newly appointed in the place of the Commissioners re-commended for retirement.

2. It will be seen from the statements submitted that the Commissioners recommended for retirement, have been in office for more than 3 years & few of the members eligible for retirement have however been recommended for re-election

ground that they take interest in their work. The new members whose names are submitted, are respectable inhabitants of the town owning houses in their respective mohalas, and they are, in my opinion, qualified to carry out the responsible duties of mohala Commissioners. I would therefore request that Government will kindly sanction their appointment and publish their nomination in the usual manner.

3. I may here add that the new town of Chamaraja mohala is very likely to become an important portion of the Mysore Town. It is therefore necessary to have two special Commissioners to represent this important mohala, and the gentlemen selected for it are in my opinion well qualified to discharge the duties of the mohala.

No. 188

Mysore Dy Comm'rs Office
Dated Mysore 26th May 1891
27

From

The Deputy Commissioner
Mysore District

To The Chief Secretary to the
Government of Mysore

Sir

I acknowledging the receipt of G. O. No. 1265 & 1044 dt: 7th May 1891, I have the honor to state that the present Kundy and Lashker Mohallas are too extensive, and two members in each will not be sufficient to efficiently carry on the work in the said Mohallas. I would therefore propose to separate Basava Mohalla from the Lashkar and appoint two members for it. The Kundy Mohalla has been divided into A and B Divisions as it is very thickly populated part of the Town with a large number

of

of lanes &c. to inspect. Two Commissioners for each Division are in my opinion absolutely necessary.

A revised Statement showing the names of Gentlemen to be appointed Commissioners for each of these Divisions is herewith submitted for approval and sanction of the Government.

I have the honor to be,
Sir,
Your most Obt. Servant.

D. Macdonell
Dep. Deputy Commissioner
Moore &c.
